

Technology Council (Revived as of 2010-2011)

These are from resolutions of the Governance Council on April 14th, 2008.

Standing Charges:

1. Work with administrators involved in areas of media and technology to ensure that plans regarding technology are driven by curricular and scholarship concerns.
2. Ensure that the University community is provided with support needed for curricular endeavors and the implementation of new programs.
3. Inform and educate the University community (including Faculty, Librarians, Professional Staff and Students) regarding new media and technology plans, procedures, issues, and trends (including but not limited to Banner, e-mail and computers).
4. Help administrators involved in areas of media and technology identify technological problems and needs, and establish media and technology standards.
5. Participate in the University's technological planning process and prioritization of media and technological resources.
6. Recommend media and technological initiatives and means for improvement.
7. Review media and technology policies and procedures periodically and suggest revisions as needed.

Additional Charges for 2010-2011:

None.
